Knoxville girl, 15, wins \$25,000 scholarship

OAK RIDGE — A 15-year-old sophomore at Oak Ridge High School is the grand prize recipient of a \$25,000 scholarship from EnergySolutions Foundation.

Katherin Xue, daughter of University of Tennessee chemistry teachers Dr. Ziling Xue and Dr. Yihui Yang, who are Knoxville residents, received the scholarship Tuesday.

Katherine was selected from more than 1,000 applicants to win the merit-based scholarship, which is to be used in math, science or engineering studies in college.

EnergySolutions supports cleanup efforts at Department of Energy sites. The foundation's scholarships are available to students in high schools near DOE areas undergoing cleanup.

Today: Partly cloudy with a shower or t-storm.
